

Pathways to Mental Healing

If I am okay, my family is too

Section 4 Get Help – Caldwell County

Spanish Mental Health Toolkit

This toolkit includes resources for how to improve mental wellbeing and overall wellbeing for you and your family, educational resources to learn more about mental health, and local and national organizations to seek help. All the resources in this toolkit are safe and serve Spanish speaking families and individuals.

Disclaimer: The materials and the information contained in this presentation and/or guide are provided for general and educational purposes only and do not constitute any legal, medical, or other professional advice on any subject matter. None of the information in our module is a substitute for a diagnosis and treatment by a healthcare professional. Always seek the advice of a physician or other qualified health providers for any questions you may have regarding a medical condition. If you have or suspect that you have a medical problem or mental health concern, promptly contact your health care provider or call 911.

Special thanks to St. David's Foundation and United Healthcare for funding the "Pathways to Mental Healing" Toolkit and our engagement efforts.

Support Groups – Groups Where You Can Talk to Someone

A support group is understood to be a group of people who get together on an ongoing basis to help each other face a problem causing changes in their daily lives by sharing experiences. This is a problem that all the group members have in common.

It is a strategy directed toward cooperation and support between people who are living with the same problem in order to contribute toward improvement of each group member's competence when facing the problem in question or its consequences and facing possible future complications. In addition, it provides a place to express doubts, fears and feelings related to their experience in a caring environment where they will meet other people who have gone through the same things and will understand each other.

Get Help – Caldwell County – Continued

Therapy Services

Therapy is a type of treatment that aims to improve mental health and well-being. It allows addressing emotional, behavioral, or psychological issues, alleviating symptoms of mental illnesses, and developing coping skills.

There are different types of therapy, each with its own approach and techniques. Sessions are confidential and secure, providing a space to explore thoughts and feelings without fear of judgement.

The duration of therapy varies according to individual needs. It can complement other treatments such as medication or lifestyle changes.
